## **GRANTS/FUNDED INITIATIVES**

Principal Investigator for *JCOIN Coordination and Translation Center*, U2CDA050097. This five year coordination center will be to support NIDA's JCOIN initiative including an analytical center, 10 research centers, and our work. This includes an administrative core, translational/implementation core, dissemination/stakeholders core,

education/research core and pilot funding core. The translational core will be responsible for implementing studies to examine the source, channel, message for various audiences that yields the greatest uptake. The dissemination/stakeholder core will develop new translational materials for the field. The education/research core will train and mentor new scholars of varying levels from undergraduate to post-doctoral. The core will focus on studies of messaging reforms regarding behavioral health issues in the justice system.

Principal Investigator for Developing Practice Guidelines for Supervision Agencies, funded by Arnold Ventures. The major goals of this project are to use Delphi methods to develop standards for how to improve supervision of individuals by probation and parole agencies. This two year project will develop normative standards for supervising probationers.

Principal Investigator with Jennifer Johnson (Michigan State University) on *Evaluation of Stepping Up Efforts to Improve MH Services and Justice Utilization*. Pending award from the National Institute on Mental Health. This five year study will use a longitudinal design to study the impact of the national Stepping Up Initiative in 455 counties and 455 control counties to deincarcerate jails. The study uses an implementation framework to examine policy and practice changes in counties as it relates to the provision of behavioral health services.

Co-Principal Investigator with Mike Gordon (Friends Research Institute) on *Buprenorphine for Probationers and Parolees: Bridging the Gap into Treatment*. This five-year study will evaluate the effectiveness of the administration of buprenorphine bridge treatment (BBT) to probationers and parolees compared to treatment as usual (TAU), which consists of referral to a community buprenorphine treatment program. Project implementation will occur at Guilford Avenue, the primary intake unit for Baltimore City Community Supervision (Probation and Parole).

Principal Investigator with Mike Gordon (Friends Research Institute) on *Use of MAT in Problem Solving Courts*. NIDA. Surveying problem solving courts to understand the prevalence and use of MAT within the courts and develop pilot strategies to expand use.

Co-Investigator with Ashli Sheidow (Oregon Social Learning Center) on *Improving access to substance abuse evidence-based practices for youth in the justice system: strategies used by JPOs*. NIDA R01DA041434-02, 10/01/17-9/30/21. The goal of this study is to examine the use of CM in juvenile probation offices in terms of feasibility of JPOs to deliver an AOD abuse intervention, clinical efficacy for JPOs as service delivery providers and identify any barriers that would need to be addressed for JPOs to deliver such services.

Co-Investigator with Gail Wasserman (Columbia University) on *E-connect: a service system intervention for justice youth at risk for suicide*, NIMH, 1R01MH113599-01, 10/01/17-9/30/21. The specific aims are to develop and test a technologically advanced cross-system identification/linkage service model that trains staff, formalizes interagency collaboration and referral decision-making and uses a mobile application to seamlessly combine (a) screening for SB and related BH problems.

- Principal Investigator for CM to Engage in Treatment at Pre-Arrest Stage (with Marc Fishman, MTC). This 30 month project is to test strategies to motivate for treatment participation.
- Principal Investigator for Smart Suite Academy (with Michigan State University, Ed McGarrell). This is a 3-year project to work with BJA grantees on research-practitioner partnerships and development of implementation measures.
- Principal Investigator for Implementation in Maryland Department of Public Safety and Correctional Services (2017). This continues a nearly 30-year agreement with DPSCS to assist with advancing practice in the agency and funds the recidivism reduction laboratory.
- Principal Investigator for Implementation Fellow for Bureau of Justice Assistance (2015) (2015-HO-BX-K014). This is a 30-month fellowship to work on the science of implementation as applied to federally funded programs.
- Principal Investigator for Administrative Office of the Courts SOARING2 project (2016-2020). This is a project to expand the use of RNR Supervision principles in federal district offices for supervised release services.
- Principal Investigator for Implementation for Mid-Level Managers, VA Department of Corrections (2016-2017). This is a project to train VA DOC consultants on implementation issues.
- Principal Investigator for SMART Probation in Philadelphia (203189) (2014-2017), a subcontract to Philadelphia PA Probation Office under their Bureau of Justice Assistance SMART Probation grant. The goal of this demonstration project is to implementing eLearning and RNR Simulation Tool in Philadelphia Probation Department. We are using an implementation science approach.
- Principal Investigator for the RNR Simulation Tool in NYC (2016-2018). This project uses the RNR methodology to examine service need levels for NYC.
- Principal Investigator for the RNR Simulation Tool ([www.gmuace.org/tools](http://www.gmuace.org/tools)) (2014-ongoing). Have received several grants to implement the tool and to develop a longitudinal study. Received funding from PEW, state of Delaware, Santa Cruz, San Francisco, North Carolina, Oregon, Travis County, Texas, Hidalgo County, Texas, Wilmington North Carolina, Pima County, Arizona, Rockdale County Georgia, and Louisiana. Have over 200 sites using the tool. Funding is from a variety of sources including federal technical assistance funding, federal agencies, state agencies, local governments, and private foundations.
- Principal Investigator for Risk-Need-Responsivity (RNR): A Simulation Tool, funded by the Bureau of Justice Assistance—Innovator’s Field study (2009-DG-BX-K026) (original grant) (2009-2017). This study will create a simulation model for federal, state, and local criminal justice agencies to use to determine whether the services provided are responsive to the risk and need factors of offenders in their correctional systems. The goal is to provide better linkage between offender needs and available services. This project will develop a web-based RNR Simulation Tool that can assist local, state, and/or federal agencies in using the risk-need-responsivity approach in practice through defining the type and nature of correctional options available in their jurisdictions. The following additions included for this project:
- Public Welfare Foundation: to automate the model
  - Center for Substance Abuse Treatment: to add in special dimensions for community-based offenders

Principal Investigator for In-Person vs. Computerized MI (with Scott Walters, U of North Texas), funded by the National Institute on Drug Abuse, 5R01DA029010-04 (2012-2018). This is a five-year RCT to test the efficacy of computerized MI intervention for substance abuse and HIV risk behaviors.

Principal Investigator for YOURS (Your Own Reentry System), funded by the Bureau of Justice Assistance, 2011-DB-BX-K010. The goal of this demonstration project is to develop a self-driven reentry planning and progress management system.

Principal Investigator for SOARING 2 (with Ralph Serin, University of Ottawa), funded by the Bureau of Justice Assistance, 2010-DB-BX-K077. The purpose of the SOARING 2 (Skills for Offenders Assessment and Responsivity in New Goals) is to create web-based tools that can facilitate the sustainability of evidence-based practices in judicial and correctional agencies.

Principal Investigator for the Field Demonstration Project (with Dan Bloom, MRDC), funded by the National Institute of Justice, 2010-RY-BX-0002. The purpose is to evaluate a theoretically driven re-entry initiative in multiple sites. The study involves testing a reentry process in a multisite trial.

Principal Investigator for Seek, Test, and Treat in Washington DC—STRIDE (with Frederick L. Altice, Yale University), funded by the National Institute on Drug Abuse, 5R01DA030768. This study is to assess the impact of testing for HIV on pretrial defendant outcomes as well as conduct an efficacy trial of BPN with counseling for opioid dependent defendants as compared to traditional substance abuse counseling.

Principal Investigator for the JSTEPS study, funded by the National Institute on Drug Abuse (5U01 DA 016213). This is an implementation study that includes both qualitative and quantitative data collection and analysis methods on the adoption of Contingency Management in federal probation and re-entry settings.

Principal Investigator for Supporting Healthier Outcomes for Women in Virginia (SHOW-VA), funded by the Virginia Department of Health. VDH is piloting a project in Southwest Virginia that employs Patient Navigators (PNs) and utilizes Motivational Interviewing (MI) techniques to engage and retain HIV-positive women in medical care.

Principal Investigator for the Effects of Manualized Treatment in a Seamless System, funded by the National Institute on Drug Abuse (R01 DA 17729). This study examines the impact of a behavioral curriculum designed to improve the offender's pro-social role in the community through a series of interpersonal and community skill-building exercises.

Principal Investigator (with Doug Young) for the Assessment and Referral Technologies in the Juvenile Justice System study, funded by the National Institute of Drug Abuse (R01 DA 018759). This study is a randomized block trial focused on the impact of different technology transfer techniques on staff implementation of an assessment, referral, and treatment protocol.

Principal Investigator, Improved Correctional Practices in Virginia with the VA Department of Corrections (with Dr. Dace Svikis). Through a cooperative agreement with the VA Department of Corrections, two studies are being conducted (one in the Prison Division and one in the Community Correctional Division) to implement a risk-need-responsivity and behavioral contracting protocol.

Principal Investigator for the Action Research to Advance Drug Treatment in the Criminal Justice System, sponsored by the National Institute on Drug Abuse, 7U01 DA 016213-06. As the national coordinating center for the National Institute on Drug Abuse's research network on treatment for the criminal justice-involved addict. Related Studies are:

*CJ-DATS National Survey of Criminal Justice Treatment Practices.* This was a multi-level survey of senior executives, administrators, program directors, and staff in correctional and drug treatment organizations. The survey involves a census of all 50 states and a nationally representative sample of counties/cities. The survey was designed to provide a systematic assessment of the availability and types of treatment provided to substance-abusing offenders throughout the criminal justice system. Surveys were collected from over 1,000 organizations on treatment and organizational issues.

*CJ-DATS Step'N Out.* This randomized trial was implemented in a Probation and Parole office in Richmond, VA along with three other CJ-DATS sites. The study involves the use of positive reinforcement and contingency management protocols to engage the offender in treatment services and improve outcomes. The protocol was a collaborative behavioral management approach to parole and substance abuse treatment, where the parole officer, treatment counselor, and client meet to work out a contract of graduated incentives and sanctions.

*HIV Prevention for Reentry Offenders.* This randomized trial was implemented in two prisons in Virginia. The study examines the efficacy of a DVD focused on gender and culturally sensitive techniques to learn to manage risky behaviors. The protocol was implemented in four sites.

Principal Investigator (with James M. Byrne) for the Evaluation of Prison Culture, sponsored by the National Institute of Corrections. The study evaluates four different organizational strategies to change the culture of problem prisons.

Principal Investigator, Developing Reassessment Tools for Probation and Parole, sponsored by the Maryland Governor's Office of Crime Control and Prevention. This project developed a reassessment protocol for probation and parole agencies in Maryland.

Principal Investigator (with Meridith Thanner, University of Maryland), Understanding Spirituality in Community Programming, sponsored by the Department of Health and Human Services to evaluate the role and effectiveness of including a faith-based component in substance abuse treatment programming.

Co-Principal Investigator (with Donald Anspach, University of Southern Maine), Drug Courts in Maine: A Test of Effectiveness, sponsored by the Maine Alcohol and Drug Agency. The grant examines the treatment provided in drug courts in Maine and the impact on offender outcomes.

Co-Principal Investigator (with Donald Anspach, University of Southern Maine), Treatment in the Drug Court, sponsored by the National Institute of Justice. This naturalistic study reviewed the composition of drug courts in four areas.

Principal Investigator for the Action Research for Reentry Partnership Initiatives, sponsored by the National Institute of Justice. The study conducted a process evaluation of eight new re-entry programs.

Principal Investigator for Using Motivational Interviewing in Supervision, sponsored by the Department of Public Safety and Correctional Services. This study emphasized examining the use of motivational interviewing in supervision.

Principal Investigator for the Evaluation of the Seamless System for Offenders, sponsored by the National Institute on Drug Abuse. This five-year study examines the costs and benefits of a systematic case management structure and the traditional supervision for offender populations.

Principal Investigator, Implementing Adult Correctional Programs, sponsored by the Governor's Office of Crime Control and Prevention and the Department of Public Safety and Correctional Services.

Principal Investigator for the Systematic Case Management Practices in Maryland project, sponsored by the Alcohol and Drug Abuse Administration. This seven-year project was to implement systematic case management practices using technology in agencies interacting with drug treatment services.

Principal Investigator for ADAM—Washington, DC, subcontractor for ABT Associates. This was a grant to conduct drug testing and interviews at booking in Washington, DC.

Principal Investigator for the Continuation of Technical Assistance for Pretrial Processing in Baltimore City, Maryland, sponsored by the Department of Public Safety and Correctional Services in the state of Maryland. This grant was to understand the pretrial processes and develop a pretrial risk-screening instrument.

Principal Investigator for the Evaluation of Break the Cycle Process and Outcome Evaluation for the First 7 Sites, sponsored by the Department of Public Safety and Correctional Services in the State of Maryland. This grant was to conduct a process and outcome study for the seven sites in Maryland implementing Break the Cycle (systemic case management approach).

Principal Investigator for Understanding Supervision in the District of Columbia, sponsored by the Offender Supervision Agency of the Department of Justice.

Principal Investigator for the Evaluation of Residential Substance Abuse Treatment Services in Five Jails in Virginia, sponsored by the National Institute of Justice.

Principal Investigator, Therapeutic Milieu: Treatment and Continuum Issues, sponsored by the National Institute of Justice. The project was a grant from March 1997 through September 1997 to conduct a process evaluation of a residential treatment program in a Maryland prison.

Principal Investigator for the Evaluation of the HIDTA Seamless System: A Multi-Systems Approach sponsored by the National Institute on Drug Abuse (R01-DA01705-01). This project used a randomized trial to assess the impact of risk based supervision in four sites.

Principal Investigator for the Evaluation of the HIDTA Seamless System: A Multi-System Approach, sponsored by the National Institute of Justice. The project was a grant from January 1997 through March 2003 to conduct a randomized experiment in eight study sites.

Principal Investigator, Treatment in the Washington-Baltimore HIDTA project of the Office of National Drug Control Policy of the Office of the President of the United States. This project involved demonstrating a systemic case management approach for treating hard-core offenders consisting of two levels of treatment (e.g., continuum of care), testing, enhanced

supervision, and sanctions. Twelve jurisdictions in the Washington-Baltimore region participated in this project. The grant provided for a process evaluation of the 12 sites and a randomized experiment in eight sites.

Principal Investigator for the Evaluation of a Quality Case Review Process in Baltimore City, Maryland Criminal Justice System. The project analyzed pretrial processing in Baltimore City. The goal was to implement an experimental design to assess the improvements in case processing procedures and pretrial detention based upon changes in policy and procedures. This project was sponsored from September 1994 through June 1998.

Principal Investigator for Jail Addiction Services, an evaluation of the effectiveness of substance abuse treatment in a jail setting in Montgomery Co., Maryland, sponsored by the Center for Substance Abuse Treatment and the Governor's Drug and Alcohol Abuse Commission. The project was from October 1993 through May 1996.

Principal Investigator for a project funded by the Bureau of Justice Assistance on Correctional Options, Prosecutors, and Public Defenders. The purpose of this project was to examine the attitudes of prosecutors and public defenders on correctional programs. The project examined interchangeably theories. The project was from September 1993 through August 1994.

Evaluator for Project Force, a prevention program for juveniles. The evaluation examined the attitude changes of participants in the program. The grant was from the Maryland Governor's Office of Drug and Alcohol Abuse Commission from September 1990 through August 1992.
